

## INTRODUCING ARCH ANGELS® CHILDREN'S COMFORT INSOLES

Children go farther with Arch Angels® inside their shoes.

Arch Angels® comfort shoe insoles are designed to address the special needs of a child's growing feet. Inspired by a mom and developed by two podiatrists, Arch Angels® support the natural curve of a child's growing arches. Arch Angels® leverage a unique tri-layered design. For comfort, the outer foam layers offer superior cushioning, while the inner core provides firm, gentle support for the developing arch. Arch Angels® are constructed of durable, non-toxic materials, and are hand washable.

To use them, simply place them into a pair of shoes and go. They naturally stay in place, can be moved from shoe to shoe, and are economically designed to last through two shoe sizes. As an accessory purchase with any shoe, Arch Angels® are a logical choice with a clear value proposition.
